

One Series Vertigo Tremolo

Product # SA243

Vertigo Tremolo Product Description:

The Vertigo offers three distinct tremolo effects. Normal tremolo delivers a divine renewal of the thumping “opto trem” amplitude modulation found in vintage Blackface Fenders. Harmonic revives the haunting sway of the Fender Super’s “Vibrato” effect from the early 60s — this vintage tremolo ping-pongs between a low and high frequency boost, creating a swinging phaser-ish effect. Finally, the sweetly overdriven Bias tremolo creates the swampy “bias wiggle” of early tube bias modulation. The Vertigo takes the tonal possibilities a step further with its Shape knob, which allows users to morph the LFO wave shape from square, to sine or opto, to saw tooth.

Out of the box, the Vertigo Tremolo offers tremendous tonal range, but beneath the surface resides a treasure chest of swirling effect possibilities. Connect the Vertigo to the Neuro Mobile App (a free download for Android or iOS devices) and access Source Audio’s free library of progressive tremolo patterns and hybrid modulation effects - each can be uploaded directly to the pedal. The Neuro App also offers an additional set of adjustable parameters including parametric EQ, wet/dry mix, tap tempo, and stereo separation. Plus, every One Series pedal is fully MIDI compatible when coupled with the Neuro Hub (formerly Soundblox Hub), giving you the power to save up to 128 presets.

One Series Vertigo Tremolo Features & Specifications

- **3 Tremolo Effect Types:** *Normal* – based on vintage Fender “Opto Trem” / *Harmonic* – a ping-ponged high and low frequency bump / *Bias* – a mildly overdriven tremolo based on tube bias modulation.
- **Stereo Input and Output jacks** – for stereo effects or alternate signal routing.
- **Universal Bypass** — Select either analog buffered or relay based true bypass.
- **MIDI Capable** — Connect the Vertigo Tremolo to the Neuro HUB and enable its MIDI functionality. Save up to 128 user presets, accessible via MIDI program change messages. Assign Hot Hand and expression control to modulation or any knob parameter. Control modulation speed with MIDI Clock.
- **Neuro Mobile App. (for iOS or Android)** – Connect your mobile device directly to the pedal for access an extended set of adjustable parameters. Save and download customized effects to the pedal and share them with other One Series owners. Connector cable included with pedal.
- **Download Free Bonus Effects** – – Choose from Source Audio’s vast collection additional tremolo algorithms. Download them directly to your Vertigo Tremolo via the Neuro Mobile App.
- **Expression Control** — Connect the Hot Hand 3 Wireless Effects Controller, the Source Audio Dual Expression Pedal, or the Reflex Universal Expression Controller via the 1/8” Control Input port for external control of modulation or knob parameters.
- **USB port** – connect the Vertigo Tremolo to Mac or Windows systems for simple firmware updates.
- **Brushed anodized aluminum housing** - Dimensions: L: 4.5 in./11.4cm x W: 2.75 in./7cm x H: 2 in./5.1cm (including knobs)
- **Includes 9v DC power supply** - 300mA / Negative tip / Pedal draws 150mA.
